

Ellissomatec®

45°/90° cutting head

Pen holder head

Glass cutting head

The central carriage slides on steel rods and thanks to the 2 ball bearings, its movement is very smooth which minimizes the effort of the operator.

The **Ellissomatec** is a machine that cuts circles and ovals, at either 45° or 90° however with the versatility to cut easily more than one opening in a mat. The machine is supplied with a pen line kit and glass cutting kit. The minimum diameter of opening is 50mm and the maximum is 450mm.
